NDS Systems Announces Key Hirings

Clearwater, FL

February 8th, 2010

ERP software firm announces hiring of several key executives, primed for further growth in 2010.

NDS Systems LC (www.ndsapps.com) an ERP software firm and the developers behind the Cync ERP product, are pleased to announce the hiring of several key executives.

Mr. Don Voelkert, Chairman of the Board of NDS Systems, announced the hiring of Mr. Thomas J. Ciurej as Chief Operating Officer, Mr. Steve Feldman as the Vice-President of Sales, and Mr. Mike Taylor as a Lead Sales Engineer.

Mr. Ciurej has been an IT industry executive for the last 14 years, and has been both the Chief Operating Officer and Chief Executive Officer of three companies during that time. He has been involved in merger and acquisition work, as well as strategic planning and business development. Hired initially as a consultant before becoming COO, Mr. Ciurej has been instrumental in finding new business partners.

Mr. Feldman brings to NDS a long and distinguished track record of coordinating successful global sales development efforts. This included being a founding team member of VP of Sales for BEA Systems, and launching a company that grew from zero sales to \$1 billion in sales in 6 years. This was and remains the fastest growing startup company in U.S. history. He's also had similar successes in several other IT companies.

Mr. Taylor was the Professional Services Manager for NDS from 1996-2002. He is returning to assist the company in its Professional Services division and provide pre-sales support. Mr. Taylor has over 13 years experience in manufacturing and distribution processing, and over 12 years experience in sales and implementation of ERP applications. His intimate knowledge of NDS's ERP software will prove invaluable to both the sales and implementation processes.

About NDS Systems

In business since 1985, NDS Systems (www.ndsapps.com) is a leading provider of enterprise-class ERP systems and applications designed for small-to-medium businesses in the distribution, manufacturing, fulfillment and financial services industries.
